REQUIREMENTS FOR THE DESIGN AND PUBLICATION OF MANUSCRIPTS

Formatting and style
- Margins: conventional (top and bottom – 2 cm, right – 1,5 cm, left - 3 cm)
- Font: Text – 14 size (spacing line spacing – 1,5 lines), title of the paper – a size 16 in bold, footnotes – 10 size (single-line spacing), Times New Roman (do not use other fonts!!)
- Use italics only in exceptional cases (for example, company names, etc.)
- CAPS LOCK should not be used. Please, do not write the title of an article using CAPS LOCK.
- The number of pages in the manuscript – up to 20.
- The language of presentation of the manuscript is English.

Text structure
- Title page.
  The title page should include:
  o the title of the article, the authors, educational institutions and addresses of the authors;
  o the name and full address of the author for correspondence (the number of authors in the team is not more than 5 people);
  o 5-7 keywords;
  o at least 1 JEL code (multiple possible)
  http://www.aeaweb.org/jel/guide/jel.php

Under the title of the article the names of the authors in the order you want them to be in the publication (14 font, bold). Please, make a footnote on the first page, where you specify (in the form) author's name (full name, not initials, for example – Ivan I. Ivanov), university, city, country, e-mail (required for all authors!) and, optionally, ORCID. You don't need to specify the street. Scientific titles do not need to be specified. The name of the university should not be indicated by an abbreviation, but in full form.

Sample design of a footnote with the author(s) 's data:
Ivan I. Ivanov
Altai State University, Barnaul, Russia
e-mail: ivan_i@mail.ru; ORCID: 0000-0002-4694-5768

- Abstract (150-250 words). The abstract should contain the purpose of the work, methodology, results and conclusions/recommendations.
- Introduction
- Methodology
- Results
- Conclusions / Recommendations
- Acknowledgments
- References (number of sources 10-25; sources numbered 1,2,3, etc.). References to sources in the text of the article should be in the format (Smith, 2002), (Smith and Wesson, 1900), if there are three authors or more - (Smith et al., 1945).

---

1 If you need translation services, please contact the organizing committee climateconf4.0@gmail.com
Rules for creating a list of references after the main text of the article

- **Books:** e.g. Harrow, R. (2005), No Place to Hide, Simon & Schuster, New York, NY.
- **Articles:** e.g. Moizer, P. (2003), "How published academic research can inform policy decisions: the case of mandatory rotation of audit appointments", working paper, Leeds University Business School, University of Leeds, Leeds, 28 March.
- **Archival materials:** e.g. Litman, S. (1902), "Mechanism & Technique of Commerce", Unpublished Manuscript, Simon Litman Papers, Record series 9/5/29 Box 3, University of Illinois Archives, Urbana-Champaign, IL.

Also:
- Footnotes should be used only in special cases, when they are extremely needed.
- Article citation: (Adams, 2006) or (Adams and Brown, 2006) or (Adams et al., 2006).

Authors' responsibility
- Each author must provide a report on the plagiarism2. The text must be at least 85% unique.
- Each article must be accompanied by two reviews in any form, including one from a foreign scientist (you can also submit one from scientists from the CIS countries). The deadline for submission is the date of submission of the final version of the article before the conclusion of the contract.
- The Contractor is not responsible for the timing of the reflection of the authors' materials in international scientometric databases. Indexing of materials in international scientometric databases can be carried out within 3 to 18 months.
- The Contractor is not responsible for the Publication's withdrawal from the international scientometric database Web of Science (and/or, Scopus, Springer.link) after the publication is indexed.

---

The Contractor is not responsible for the inclusion of the Publication in the Russian scientometric database of the RSCI.
The contractor is not responsible for the correctness of the personal email addresses of the authors in the article and the copyright.
The Contractor is not responsible for the proofreading.
The author bears the risks in case of providing low-quality scientific material.
Articles must correspond to the subject of the book.
Articles must be designed according to the requirements. The requirements are sent to the authors before the author enters into the contract.

**Ethical principles of preparation of a scientific article by the author**
- Authors are required to publish only original articles and use only original research materials. All borrowings from other sources must be drawn up accordingly, with the obligatory indication of the author and the original source. Plagiarism in any form, including unformulated quotations, as well as the assignment of rights to the results of other people's research, is unacceptable.
- Authors should indicate the contribution of all persons whose work formed the basis of the study. Persons who did not participate in the study should not be listed as co-authors.
- The authors of the article submitted for publication must be based on reliable results of the conducted research. The use and disclosure of deliberately unreliable data is unacceptable.
- Authors do not submit for publication in the journal previously published works, as well as works proposed for publication in other journals.
- Authors attach to the article their personal data (place of work, address of the place of work, position, e-mail), which are allowed to be published in the journal.
- The authors agree that their article will be sent for review (the name of the reviewer is not disclosed) and undertake to cooperate with the editors to improve, shorten or supplement their article in accordance with the reviewer's comments, as well as to correct these inaccuracies.
- If errors or inaccuracies are found in an article that is under review or has already been published, the authors should notify the editorial board as soon as possible.
